### **Run Run Run: The Lives of Abbie Hoffman**

Intertwining the details of Abbie Hoffman's intense personal life with the movement politics of the sixties, seventies, and eighties, Dan Simon writes Abbie's story from the point of view of his younger brother Jack, creating a full and poignant portrait of one of the geniuses of the 1960s counterculture. From the creation of the Yippies in 1967 and the tumult of the 1968 Democratic National Convention

protests, to the humor and agony of the Chicago conspiracy trial, the scandal of Abbie's 1973 cocaine bust, and his six and a half years as a fugitive, to his reemergence as environmentalist "Barrie Freed" and his final struggle with manic-depressive illness, this biography offers a thorough examination of the contradictions that make Abbie Hoffman such a compelling figure. With the information and affection only a brother could bring to the complexities of Abbie's life, Hoffman and Simon portray Abbie's public persona alongside his private aspirations and fears, romances, and enduring family relationships.

## Anarchism

### **Anarchist Voices**

Through his many books on the history' of anarchism, Paul Avrich has done much to dispel the public's conception of the anarchists as mere terrorists. In *Anarchist Voices*, Avrich lets American anarchists speak for themselves. This book contains 180 interviews conducted by Avrich over a period of 30 years, interviews that portray the human dimensions of a movement much maligned by the authorities and contemporary journalists. Most of the interviewees (anarchists as well as their friends and relatives) were active during the heyday of the movement, between the 1880s and the 1930s. They represent all schools of anarchism and include both famous figures and minor ones, previously overlooked by most historians. Their stories provide a wealth of personal detail about such anarchist luminaries as Emma Goldman and Sacco and Vanzetti.

The yippies are briefly mentioned by Dwight Macdonald & Bob Zmuda.

## Acid Communism

### **From Capitalist Realism to Acid Communism**

Adam takes us through the aspects of melancholia and depressive psychology in *Capitalist Realism*, its psychological and social mechanisms, and how the question of the geopolitics of *Capitalist Realism* and neoliberalism shifted in Fisher's analysis from a Cold War East-West focus to one that centres the imperialist destruction of communism in Latin America. Reflecting on contemporary social movements such as anti-raids groups and school strikes, Fisher's optimism for a post-capitalist desire is illustrated through the reframing of *Capitalist Realism* in *Acid Communism*, a project which reaffirms that all consciousness is malleable and the site of an active struggle, a struggle haunted by the spectre of a world that could be free.
