## **SURVIVE LANDING PAGE**

Everyone from the CorpGov CEO in his private jet to the bum on the street has one thing in common: They both need food to eat, clothing to keep warm and able to be in public, and a shelter to keep out of the elements. But, what if disaster strikes and all of this is taken away? How does this apply if you are in school? What about all these drugs out there? Survive articles answer these questions and more from REAL experience... not some corporation funded agenda that wants to influence your behavior.
